NEW FRENCH CABLE

Company Wants to Land Its Line at Cape Cod, Mass.

LANDING MAY BE PROHIBITED.

Attention of Senators Called to Restrictions in a Pending Bill—Threats of Retaliation—Republicans and Democrats Agree to a Plan for Reorganizing Committees.

WASHINGTON, April 17.—The French embassy here is actively assisting the French telegraphic cable company in efforts it is making to lay a new cable from Brest, France, to Cape Cod, Mass., which shall take the place of the old cable laid 18 years ago. For this purpose the attention of senators has been called to the restrictions which a pending senate bill will place upon the French company. This bill prohibits the landing of new cables without the previous consent of congress, and it is claimed to be directed mainly against the French company. The cable has been partly laid and it is said that the cable company is laying a cable makes it necessary to take advantage of the coming summer weather in order to make the landing at Cape Cod.

The French company has submitted a protest to the senate committee on commerce, and a strong intimation has been made to senators from official French sources that if the French company is denied entrance to this country then there will be strong probability of retaliation by the French government against the four American cable companies entering France. The point is urged also that the cable line to France would be an important military and strategic line to this country in the event of trouble between the United States and Great Britain, as all other trans-Atlantic cable lines pass over British territory.

The statement presented to the senate commerce committee points out that the French government is a friendly republic; that 4,000 American pupils are receiving their education free at the government's schools in France, and that as France has never discriminated against American companies congress should guard against legislation "which may be considered by the French republic as injurious to the interests of its people."

Mr. Blaine, when secretary of state, took decided grounds against allowing foreign cable companies to land their cables in this country without permission. It is said that in the course of the present controversy it has been stated that if the French company attempted to land its cable at Cape Cod the state department would interpose force, if need be, to prevent the landing. Another international phase of the subject is in connection with a proposed new German cable company. It is said that the senate bill is aimed at the German rather than the French company and is in some measure designed as retaliation for the restrictions against American life insurance companies doing business in Germany.

SENATE COMMITTEES.

Republicans and Democrats Agree on a Plan of Reorganization.

WASHINGTON, April 17.—The Republican committee on committees of the senate has agreed unanimously to accept, so far as it is empowered to do so, the proposition made by the Democrats for the organization of the senate committees. The proposition which the committee has agreed to accept provides that the Republicans shall fill all the committee places which were filled by Republican senators during the last congress, including the chairmanships vacated by Republicans, and that they shall be given one additional place on the appropriations committee vacated by a Democrat, and that the membership of the committee on postoffices and postroads be increased from nine to 10, in order to give the Democrats an additional place on that committee. This arrangement will result in leaving the Republican senators at the head of all the important senate committees, but a majority of the membership of many of them will be anti-Republican.

Throat Coughs

Is there a tickling in the throat? Do you cough a great deal, especially when lying down? Are you hoarse at times? Does nearly every cold you take settle in your throat? These "throat coughs" are very deceptive. Don't neglect them. Troches, or cough syrups won't touch the spot. You must take remedies that will enrich the blood, tone up the nerves; and heal the inflamed membranes.

SCOTT'S EMULSION of Cod-liver Oil with Hypophosphites contains such remedies. It has wonderful nourishing and healing power. The cause of the cough is removed; the whole system is given new life and vigor; and the danger from threatening lung trouble is swept away.

Book about it free. For sale by all druggists at 50c. and \$1.00.

Western Senators Combine.

WASHINGTON, April 17.—Western senators after several conferences have reached an agreement to stand together for important changes in the wool schedule of the Dingley bill. The senators most prominently identified with the movement are Messrs. Mantle, Carter, Shoup, Warren and Burrows. They have not only agreed upon a line of amendments, but have decided to insist on their inclusion in the bill. The meetings held have also been attended by many prominent woolgrowers.

TRUCE DECLARED.

The Senatorial Fight is Practically Off Until Tuesday.

FRANKFORT, Ky., April 17.—A truce in the senatorial battle has been declared until next Tuesday. The respective steering committees have signed agreements that on today and Monday one vote should be cast for each of the candidates. Nearly half of the members have gone home or elsewhere to stay till Tuesday morning and most of the remaining half will go to Louisville on a special train to attend the address of William Jennings Bryan at the Auditorium tonight. It is generally agreed that the Blackburn people are hoping for the indictment of Hunter on the idea that if indicted he cannot withdraw from a cloud and the cloud could not be lifted till the trial of the indictments which would last the summer out.

The grand jury, which has kept three deputy sheriffs busy looking for and summoning witnesses for two weeks, is not yet through and adjourned again last night without making a report.

DAUNTLESS WINS AGAIN.

Case Charging Violation of Neutrality Laws Dismissed.

JACKSONVILLE, Fla., April 17.—The case against the steamer Dauntless, charged with violating the neutrality laws by taking a filibustering expedition to Cuba from No Name Key on the southern coast of Florida, on Jan. 1, 1897, came up for trial in the United States court yesterday. After the government had submitted its testimony the case was promptly dismissed. No testimony was offered by the defense, and argument was not made by counsel. Judge Locke stated that no evidence had been submitted to show that the Dauntless had been fitted out for the purpose charged.

MISHAP TO THE INDIANA.

The Battleship Loses One of Her Torpedo Shells.

NEW YORK, April 17.—The battleship Indiana which lies anchored off Tompkinsville, lost one of her torpedo shells on the morning of the 14th, while at target practice. The torpedo shell was a blank one, 18 feet long, and was fired at an imaginary target 500 yards distant from the battleship. When fired on Wednesday morning, the mechanism of the shell got out of order and the practice crew were unable to find it. The torpedo shell cost \$2,500 and several boat crews from the Indiana have searched the waters of the upper and lower bay endeavoring to locate it, but so far without success.

SEIZED THE LIQUOR.

Consignment of Ninety-Eight Cases Taken by South Carolina Constables.

CHARLESTON, S. C., April 17.—Dispersary constables yesterday seized 98 cases of liquors consigned to John C. Simonds, one of the leading men of the city. The liquor came from a San Francisco house and was marked for personal use. A drummer of the house was recently in Charleston and a number of the leading people of the city clubbed together and made this purchase.

Fearful Order Revoked.

WASHINGTON, April 17.—Secretary Long has revoked the orders by which Lieutenant Robert E. Peary, the Arctic explorer, now on duty at the New York navy yard, was detailed to the Mare island yard, California. Strong pressure was brought to bear by the scientific and geographical societies throughout the country interested in Arctic explorations to have the secretary revoke the order. No application for another leave of absence has yet reached the department from the officer.

Passed the Senate Bill.

AUSTIN, April 17.—The house yesterday took up and rushed through the senate bill taxing sleeping and dining car companies 10 cents per 100 miles of travel, and life insurance companies 2 cents on the gross premium receipts, and fire and fidelity companies 1 per cent annually. The bill only needs the signature of the governor to become a law.

BIGGS LEVEE BREAKS

People Have Been Notified to Flee From the Flood.

SITUATION AT OTHER POINTS.

People in the Vicinity of Vicksburg Have Not Heeded the Warnings Given by the Weather Officer—Anxiety is Intense at Natchez—At New Orleans.

VICKSBURG, April 17.—The levee at Biggs, two and a half miles below Delta, La., broke last night. The crevasse was 120 feet wide 20 minutes after it gave way. Delta is directly opposite Vicksburg.

The people have been notified to flee from the flood. Biggs is a sandy levee, generally speaking, though it cannot be asserted that this is the cause of the crevasse. Its importance may be estimated by the fact that such efforts have been expended to maintain it. Madison parish, whose interior is thus invaded by the great flood, is one of the richest and most populous parishes in north Louisiana, in the highest state of cultivation, and abounding in stock. Little of the latter has been removed up to the present time.

Few Heed the Warnings.

The situation along the Louisiana levees across the river, for 50 miles above and below this city, dwarfs every other feature of the flood problem into temporary insignificance. The rise shows no sign of diminution and the levees are actually in danger of being overtopped by the water now pouring out of the Yazoo basin in a sheet 25 miles wide, for a distance of 10 miles opposite this city. In spite of the evident danger and of the repeated warnings of the weather bureau very few persons are removing stock to the highlands, though all are taking other precautions, it is believed.

MEMPHIS REPORT.

Supreme Test of the Flood Situation is Now at Hand.

MEMPHIS, April 17.—Advices from Natchez and other points below Vicksburg indicate that the supreme test in the flood situation is at hand. The swift current, which is rising steadily, is beating against the levees with such force as to cause the gravest apprehension at many places. At Natchez the river is near the top of the levee and everything possible is being done to fight back the encroaching waters. All kinds of rumors have been current regarding wholesale loss of life on Davis island, but diligent telegraphic inquiry fails to confirm the story. It is known that three negroes were drowned on the island, but outside of these fatalities no further loss of life is known to have occurred.

At Vicksburg the river is rising at the rate of four-tenths of a foot daily. The swift volume of water pouring out of the Yazoo into the Mississippi river at a point 12 miles north of Vicksburg will continue for several days. The levees between Bedford's store, four miles south of Delta, La., to Duckport, six miles above, are in a precarious condition and every man and boy available is at work strengthening the embankment. At some points in this stretch of levee the water is washing over and the greatest alarm is felt.

At Greenville the backwater from Stops Landing crevasse, which has been rising in the flooded part of the town during the last three days, began falling today. Rosedale, Friar's Point, Helena and other places report an encouraging improvement in the situation. The river declined one-tenth of a foot at Greenville yesterday and the fall of two-tenths of a foot reported at Cairo renewed hope that the vast amount of water will recede in time to make a good crop.

Many women live under a constant cloud of gloom and depression. The weariness and weakness caused by some ailment of their sex is like an overhanging demon of disaster always ready to descend upon them. The average doctor cannot help them much. He has not time to become a specialist and learn the best treatment for these delicate troubles. He relies upon "local treatment."

which seldom does any good, and often does harm. No wonder women get discouraged, but they needn't.

Any woman suffering from these delicate complaints who will write to Dr. R. V. Pierce, chief consulting physician of the "Invalids' Hotel and Surgical Institute," Buffalo, N. Y., will receive, free of charge, a letter of sound professional advice and suggestion for home-treatment. Dr. Pierce is one of the most skillful specialists in the world in treating women's diseases, and his "Favorite Prescription" cures the most obstinate difficulties, when all else fails.

J. F. Beverly, Esq., of Goliad, Goliad Co., Tex., writes: "My wife suffered from cold feet and fainting spells, heaviness and soreness in the lower part of the stomach, also heart trouble, loss of appetite, tired feelings, rest broken—could not sleep. I tried five doctors. None of them gave her relief. She suffered five years. She was helpless—could not walk from the bed to the fire-place. She used two bottles of Dr. Pierce's Favorite Prescription, one bottle of Dr. Pierce's Pellets, and the local home-treatment he advised. Below my wife had used the first bottle of the medicine she felt the good effect and said one bottle would be enough. I insisted on her using two bottles, and she did so. Now she is sound and well, and I can praise your medicine to the extreme."

UNDER THE GARFIELD ACT.

Mayor Good of Springfield, O., to Be Prosecuted.

SPRINGFIELD, O., April 17.—E. E. Calhoun, district organizer of the Typographical union and a member of the Trades and Labor assembly, stated yesterday that the assembly had retained lawyers to take steps to prosecute Mayor John M. Good for alleged violation of the new Garfield corrupt practices law limiting the amount a candidate for any office can expend to secure his election. In Mr. Good's case the limit was about \$190. His bill of expenses showed an expenditure of but \$46. The assembly claim that Good's real expenses were about \$1,000. The case will attract great attention, as it will be the first test case under this remarkable new law.

War Not Likely.

LONDON, April 17.—John Hays Hammond, the American engineer and former member of the Johannesburg reform committee, arrived here yesterday from South Africa. He says that while affairs at Johannesburg were very unsettled, precluding a discussion of politics he did not think an outbreak of war between Great Britain and the Transvaal was likely to occur in the immediate future.

Dr. Miles' Nerve Triumphs.

Excessive Nervousness from Childhood.
La Grippe Brings on Heart Weakness.

REV. B. P. SEAREY, pastor M. E. church, Buchanan, Ga., writes Dec. 10, 1895: "In childhood I was afflicted with excessive nervousness, which, almost developed into St. Vitus dance. I partially recovered, but at college it gradually grew worse. Close study aggravated the trouble; any unusual exertion caused trembling all over. In 1890 I had a severe attack of La Grippe which brought on heart weakness. I had been almost constantly under treatment for nervous troubles, and changed climates frequently without avail. Last February I began taking Dr. Miles' Restorative Nerve and Nerve and Liver Pills and since then I have been studying more and working harder than for years and the good effects that have resulted seem to be permanent." Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle benefits or money refunded. Book on Heart and Nerves sent free to all applicants. DR. AFFAIRS AT WASHINGTON.

Tariff and bimetalism—those two great issues of the campaign—have been prominently at the front during the present week in Washington.

And those people who doubted the sincerity of the profession of the republican party on either of these subjects have found that they were mistaken.

A thoroughly protective tariff, one which looks after the interests of the farmer and the workingman—that is what the new Dingley act is to be when it gets upon the statute book—what it is in fact today, for the probabilities are that it will be little changed by the senate.

Earnest and intelligent efforts in behalf of international bimetalism—that is what this week's work means upon that subject. The appointment of the commission, whose names have already been given the public, assures prompt, vigorous, and, it is hoped, successful work.

THE BIMETALLIC COMMISSION.
The appointment of Senator Wolcott of Colorado, ex-Vice-President Stevenson of Illinois and Hon. C. J. Paine of Massachusetts, as commissioners to pave the way for an international conference has been cordially commended.

Until this nobody knew definitely what the President's plans were in regard to this question. It was known that he was extremely anxious to take the proper steps towards carrying out the pledge of the party looking to international consideration of the silver question but just how he proposed to bring this about or to take the initiative nobody was able to say. It now appears that, as usual, he has chosen the wise plan, and one most likely to be successful.

President McKinley's hope is that it may be practicable to hold this conference in the United States and in the city of Washington. If this shall happen every American citizen will have the full benefit of the discussion which there arises.

The commissioners who are to go abroad to try to bring about an agreement for conference are highly commended by members of all parties as especially judicious selections. Mr. Wolcott, by reason of his long study of the question and discussion on two previous trips abroad of this same subject, will be of much greater value than any man who had not had these experiences.

ex-Vice President Stevenson, representing the silver element of the democracy and well known by reputation and in person abroad, will instantly command attention; while Mr. Paine, as a close student of this subject will prove equally useful and influential.

THE TARIFF.
The people who are assuming that the tariff bill is likely to drag through the summer and keep the business of the country in an unsettled condition awaiting final action are to be disappointed. The next week or ten days at the furthest are likely to see the bill perfected by the republican members of the finance committee and it is likely to get into the senate before the month ends. Prospects now seem to be good for a final vote upon it in June and its completion in time that it may go into effect at the beginning of the fiscal year July 1st.

The changes made by the senate committee are much less in extent and importance than had been expected. The pressure for a reduction in the duties on wool has not been successful thus far and the chances seem to be that they will not be. The demand of the sugar trust for changes in the schedule advantage to them has been promptly rejected. The wall of the standard oil trust and of sundry other corporations of this character have passed unnoticed. Those democrats and populists and other enemies of the republican party who had hoped to be able to make political capital by charging that the tariff

bill was favorable to corporations and trusts are disappointed. And they will continue to be disappointed.

TROUBLE IN THE DEMOCRATIC CAMP.

While things are moving on smoothly with the republicans, there is trouble among the democrats. The breach between the Bailey and the Bryan factions in the house has been widened, and the populist allies of that party have been given the cold shoulder. The sockless Simpson, finding himself fast losing the notoriety which his eccentricities have awarded him, developed a new freak and attacked the speaker because of his failure to appoint committees when committees were not needed.

The Bryan wing of the democracy being so accustomed to co-operating with the populist, wanted to support Jerry, but the Bailey wing opposed it. Mr. Bailey, who last fall opposed the consolidation of the populist and democratic party in the campaign, retains the same views today and put them into practical operation. As the leader of the democratic side of the house, he called a caucus at once, and by a vote of two to one adopted a resolution declining cooperation with Simpson and his followers, thus again defeating the Bryanites in their attempt to control the democracy in the House.

HOBBS

PREDICTION COMES TRUE.

During the Past Three Weeks there Has Been in Seymour a Great Reduction in the Sufferings of Those Afflicted With Kidney Ailments.

Some Retail Druggists Estimate This Reduction as High as Thirty-Three Per Cent.

Hobbs Sparagus Kidney Pills Are Doing Heroic Work.

The great mass of testimonials received in favor of Dr. Hobbs Sparagus Kidney Pills must, as a matter of course be held sacredly confidential, but many of the cured patients from different sections of the country are anxious to have their letters published for the benefit of others who are suffering from kidney disease as they did.

In the face of the convicting evidence that has appeared in these columns in favor of this harmless but highly efficient remedy, and the general publicity that has been given to the matter it would appear to the average person that any one who was suffering from kidney disease would by this time have taken advantage of Dr. Hobbs grand discovery and thoroughly proven specific.

However, for the benefit of those who may still doubt the curative powers of Dr. Hobbs Sparagus Kidney Pills we herewith append to this article more convincing proof:

One of the Best Known Men in Michigan Indorses Dr. Hobbs Sparagus Kidney Pills—Says They Work Like a Charm.

A reporter called on Col. A. T. McReynolds of 325 Madison avenue, Grand Rapids, and found a man ninety years of age, remarkably well preserved, and in reply to his question told the following interesting experience: "I am ninety years old and have lived in the State of Michigan for sixty-three years, holding many political positions during that time. I suppose I am one of the best known men in this State to day. I have not known what it was to be sick or have a doctor until a year ago last winter, when I was taken with a gripe which, after getting over the acute stage settled in my kidneys and bladder, causing me a great deal of pain and trouble ever since. My feet and ankles were swollen to twice their normal size. I thought old age had a good deal to do with my condition, and had resigned myself to remain a sufferer for the rest of my life. But I noticed where the newspapers were to test Dr. Hobbs Sparagus Kidney Pills, and thinking I was a good subject, I applied for a box, which they sent me. I started taking them at once and to my surprise, as well as satisfaction, I began to improve from the very start. I am now using my first regular box that I got from my druggist after the samples were used up. I find that the pains in my kidneys and bladder have left me entirely, and the swelling has disappeared from my feet. In fact, all the weakness and bad symptoms have gone, and I cannot find words to express my gratitude to the Hobbs Remedy Co. for bringing before my notice a remedy that does the work in such a satisfactory manner as Dr. Hobbs Sparagus Kidney Pills. They work like a charm, and I take great pleasure in being able to tell my friends what they have done for me."

Darwin's Theory.

Probably the best exemplification of the Darwinian theory that man is a direct descendant of the monkey tribe is to be found in the clever manner of Prof. Gentry's company of superbly educated dogs and ponies, which will exhibit under a large tent on West Second street, Tuesday, April 20, afternoon at 3 and night at 8. His name is "China" and the professor claims he is the smartest and most intelligent of his species. At present he is giving a most extraordinary and wonderful imitation John Robinson, the veteran circus rider. "China" turns somersaults, leaps over objects, upon pedestals and does many other clever things in the Professor's marvelous entertainment. In act to see him is worth the price of admission alone. Matinees for ladies and children will be given on Tuesday, Wednesday, Thursday, Friday and Saturday at 3 p. m. Admission, children, 15 cents; adults 25 cents.

HYMERA Men Walk Out Because Their Wages are Not Paid.

HYMERA, Ind., April 17.—The miners employed here are striking for arrears of pay, three pay days having passed, and the aggregate amount due being \$1,300. The company offered to divide \$500 among the employees, but this was not satisfactory. When the mine was repaired after the fire each miner donated \$10, and it is alleged that miners who afterward sought work with the company were called upon for the same amount. Merchants and others also contributed in re-establishing the mine.

The Easter Birth.

Again the flower-shoot cleaves the sod;
Again the grass-spear greens the sod;
Again buds dot the willow-rod.

The sap released within the tree
Is like a prisoned bird set free.
And mounteth upward buoyantly.
Once more at purple evening-dream
The tender-voiced, enamored stream
Unto the rush renews its theme.

How packed with meaning this new birth
Of all the growing things of earth—
Life springing after death and dearth.

Thou, soul, that still dost darkly grope,
Hath not this in its vernal scope,
Some radiant resurrection hope?

Italians at Work.

The Italians employed to make repairs on the B. & O. S. W. just west of the city are at work again today. No further trouble is anticipated.

The opposition to the Italians was not carried forth in a manner to meet the approval of the citizens of Seymour in general. Most people obey the law and do not sympathize with any movement that is in violation of the laws of the state.

It is now learned that the Italians were employed to work on the road at Dilsville only after three separate attempts to secure natives. They get \$1.25 per day and not 65 cents as was at first reported. We may not sympathize with the employment of these Italians, yet the law grants them protection. That fact we must realize as good and peaceable citizens of the state.

Deafness Cannot Be Cured.

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When the tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out, and this tube restored to its normal condition or hearing will be destroyed forever, nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness caused by catarrh that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Props., Toledo, O. Sold by druggists, 75 cents.

Ambitious Democrats.

Already some local democrats of the free silver brand are laying plans, hoping to succeed republicans a year hence in the administration of the affairs of the city. Of course they will be disappointed, but the probability of defeat never stands in the way of a democrat's anxiety to hold office.

On good authority it is stated that attorney J. T. Arbuckle has convinced himself that he is about the right size for mayor, and has gone so far as to hint the same to some of his confidential advisors. He feels encouraged.

F. W. Wesner (key note sounder) believes that he has done sufficient work for the untried to warrant recognition. He wants the nomination for city clerk and will demand that when the proper time comes. He like Arbuckle, knows that it is a little early to begin a campaign for a local office, but he argues that the "early bird" gets there.

There are others who are ambitious to serve their country by holding office and will recite this fact to their friends later on. Their ambition is indeed commendable, but the sad thing about it is their hopes will not be realized. Republicans will continue to hold the offices and serve the people.

POLITICAL BREVITIES.

The Fairport Rocks.

The recent report that the Baltimore & Ohio railroad had made two important lake connections, one to Duluth and the North-west via Northern Steamship line, and the other to Chicago and Milwaukee, via the Owen line, through Fairport, O., has created some interest in the size and capacity of the docks at Fairport. Fairport is the Lake Erie terminus of the Pittsburgh & Western railroad, which is well known, is practically a B. & O. property, although under separate management. For some years the Fairport Warehouse & Elevator Company, which owns the docks and the facilities at that point, has been spending a great deal of money for the purpose of putting the plant in the very best possible condition to handle a very large lake and river traffic. The docks are 1200 feet in length and contain two steel frame iron-clad warehouses, each 465x90 feet, with a capacity of 150,000 barrels, and there is in addition, a one million bushel iron-clad grain elevator.

John R. McLean's Great Newspaper.

Without a single exception, there is no paper of greater or more popular newspaper in the United States than the Cincinnati Enquirer; and no more successful publisher than its proprietor, Mr. John R. McLean.

The old-time prices for the Daily Enquirer have been maintained, and its circulation largely increased each year; hard times and cheaper journals failing to arrest its onward march and high appreciation of the public for its true worth and merit.

The Weekly Enquirer at beginning of the campaign year was offered at 50 cents a year, and its circulation increased by the addition of over 200,000 new subscribers; the most substantial and coveted testimonial a publisher could desire.

When asked for the secret of such success, Mr. McLean frankly answers: The Enquirer has no opinions to force upon its patrons, it simply prints the facts and tells the truth that the reader may form his own opinions. By maintaining the price of the paper, more news and greater variety can be furnished, and every class of business interests catered to, which a cheaper journal cannot afford.

The very liberal support given the Enquirer by the public at large, makes it incumbent upon the management to serve it faithfully with zeal and enterprise in minor matters as well as those of greater magnitude.

He Was in Luck.

As a teamster was slowly working his way through the quagmire, commonly known as a county road, between the Cummings hill and Fossil, he espied a hat in one of the ruts in front of him. As the headgear appeared to be fairly good condition, he dismounted to pick it up. As he raised the hat, he was astonished to hear a voice coming from under it exclaim: "Hold on, that's my hat." As soon as he had gathered his breath and wits, the teamster asked: "What are you doing down there?" Which brought forth the reply: "I'm in big luck to be where I am; there's a horse underneath me."—Fossil (Ore.) Journal.

Dangers of the Grip.

The greatest danger from lagrippe is of its resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. Among the tens of thousands who have used this remedy for la grippe, we have yet to learn of a single case having resulted in pneumonia, which shows conclusively that this remedy is a certain preventative of that dread disease. It will effect a permanent cure in less time than any other treatment. The 25 and 50 cent sizes for sale by C. W. Milhous, druggist.

Ben Hur.

VALLONIA, Ind., April 16, 1897.—Through the work of deputy organizer Dr. L. Ewing, of Colfax, Ind., the mysteries of the "Tribe of Ben Hur" were revealed to a very large number of the best and most influential citizens of our town and surrounding country last night at the school building. Some of the boys from across the river had their place at the "oars" as they crossed the river but had to abandon the boat and wade, but they were bound to be there. A court made up of such brothers as those will be sure to succeed and any court should be proud of the men.

Supreme Deputy, B. E. Hays, of Crawfordsville, had charge of the work. He is almost a whole court in himself. The work exemplified by him is impressive and thorough. He was ably assisted by Roy Gerand, of Crawfordsville, Dr. L. Ewing, of Colfax, and C. B. Davis, of Brownstown. The work was begun about 8 o'clock and about one o'clock all left for their homes feeling glad that they had been there and that one of the best steps of their life was taken when they enlisted under the protecting arm of "Ben Hur."

The following officers were elected and installed as the first officers of Vallonia Court 118: Past Chief, Dr. H. E. Yost; Chief, S. T. Loechart; Judge, Henry Aldridge; Teacher, J. L. Vinson; Scribe, Jas. C. Blain; K. of T. J. H. Gossman; Captain, F. A. Ryker; Guide, J. W. Trowbridge; I. G. K., Charles Duncan; O. G. K., Henry Labraun.

The court starts out with glowing prospects and from the many favorable words we hear of it, it will only be a short time till they have doubled their membership. This is the second court in the county and ere long there will no doubt be many others.

Americans are the most inventive people on earth. To them have been issued nearly 600,000 patents, or more than one-third of all the patents issued in the world. No discovery of modern years has been of greater benefit to mankind than Chamberlain's Colic, Cholera and Diarrhoea Remedy, or has done more to relieve pain and suffering. J. W. Vaughn, of Oakton, Ky., says: "I have used Chamberlain's Colic, Cholera and Diarrhoea Remedy in my family for several years, and find it to be the best medicine I ever used for cramps in the stomach and bowels." For sale by C. W. Milhous.

BANK ROBBERS.

Cashier Stiekney Murdered and All the Cash Taken.

SOMERSWORTH, N. H., April 17.—While resisting the entry of two desperate and determined robbers, and during a heroic but futile struggle to protect \$150,000 or more in money and securities in the compartments of the open vault of the Great Falls National bank of Somersworth yesterday, Cashier Joseph A. Stiekney was struck down and brutally murdered near the desk which he had occupied for years. After killing Stiekney the murderers ransacked the vault and fled with all the cash it contained with the exception of a \$5 gold piece. As near as can be estimated about \$6,000 was taken, but it is possible that the loss will considerably exceed this sum, as no one but the dead cashier knew the exact amount that was in the institution at the time.

The robbers after knocking Stiekney down with a blackjack cut his throat. The most remarkable feature of the robbery is the fact that \$100,000 in bonds of the United States, which were kept in one of the drawers of the big vault and which the robbers evidently examined hastily, were not taken. Neither was any of the negotiable paper and securities of the bank—in fact nothing is missing except the cash. The men made their visit to the bank at the busiest part of the day in the locality where the bank is situated, and so completely and thoroughly did they accomplish the robbery that only an uncertain clue and a very meagre description of them was obtainable.

THREE CENT FARE.

President Mason and Manager Elliott of the Streetcar Company indicted.

INDIANAPOLIS, April 17.—The criminal court yesterday took hand in the Streetcar company's determination to not obey the 3-cent law passed by the last legislature. Judge McCray convened the grand jury and charged it regarding the violations of the law. As a result last evening 14 indictments were returned. The men indicted include President Mason of the Citizens company, Manager Elliott and 12 employees including two road officers. The indictments charge them with violating a state law in demanding and exacting more than 3 cents fare from passengers on streetcars. The defendants were arrested and gave bond in \$200 each.

The injunction case of the company against Charles Wiltzie, the prosecuting attorney of Marion county, to prevent the enforcement of the law brought in the United States court, will probably be decided today. The court will also decide the constitutionality of the law.

MUST SUFFER DEATH.

Murderer Hartman, Who Killed Mrs. Geddes, Convicted at Paxton, Ills.

PAXTON, Ills., April 17.—The jury in the trial of Frederick Hartman, who murdered Mrs. Weibke Geddes, near Sibley, found Hartman guilty last night and stipulated the death penalty. Hartman was perfectly composed and indifferent. The jury deliberated a few minutes only. On Dec. 3 Mrs. Geddes, the wife of a farm laborer, was found murdered at her home. Her body was suspended by the neck from a doorknob and was terribly bruised, she evidently having been killed by strangulation and blows with a potatofork.

Hartman is believed to have killed a number of women in Illinois, Indiana and Michigan, all of which were murdered in much the same manner as was Mrs. Geddes. One victim was found near Melvin, Ills., and another at Danforth, Ills. Hartman is a farmhand, 40 years old and formerly lived in Bloomington, Ills. Although long suspected, none of the other murders could be fastened upon him.

Cashier Taylor Returns.

KANSAS CITY, April 17.—George A. Taylor, former cashier of the defunct Argentine bank, who mysteriously disappeared about a month ago, has returned home and voluntarily submitted to arrest on a warrant charging him with illegal banking. Taylor was arraigned and given a preliminary hearing. Friends went by his bonds. The warrant for Taylor's arrest was sworn out by a former depositor, who charged that the bank was in a failing condition when Taylor received a deposit from him. Taylor had been in New York looking for work.

Arrested as a Witness.

NEW YORK, April 17.—Deputy United States Marshal MacViney yesterday arrested Alexander C. Macauley, an important witness wanted by the government in connection with the alleged bicycle swindle for which W. S. Thompson was arrested. Macauley consented to go to Chicago and will probably start for that city with a deputy marshal tonight.

Warning and Threats.

OWINGSVILLE, Ky., April 17.—Proprietors of the Shelburn Roller mills have been notified by raiders that they must not sell flour at more than \$1.50 a barrel. They have also threatened to burn the large bridge over Licking river at Sherburne. This bridge was built by Fleming and Bath counties at an enormous cost to the taxpayers of the two counties.

Extending Street Railway Franchises.

SPRINGFIELD, Ills., April 17.—The Humphrey bill, extending street railway franchises 50 years, and providing a tax on the gross earnings of streetcars has been passed by the state senate 99 to 16. The bill has yet to pass the house, and is being bitterly opposed, particularly in Chicago, by the municipal reform organizations.

Cigarmaker Suicides.

INDIANAPOLIS, April 17.—Henry Dinges, a cigarmaker, who came here from Terre Haute, Ind., about Feb. 1, committed suicide in the George Hotel yesterday, by taking morphine.

BACK

NEILL OF ARKANSAS.

Another U. S. Congressman Indorses Paine's Celery Compound.

Within the past year, among the thousands of hearty testimonials to the wonderful curative powers of Paine's celery compound that have been received by Wells, Richardson & Company—among the thousands of grateful letters received from every state and town in the country, there have come no less than six hearty indorsements from members of the national houses of representatives.

All were willing that their experience should be published, believing rightly that they might thus do good to others.

In these columns have already been published, the letters received from Congressman Robert Neill of Arkansas, as follows:

"My home is at Batesville, Ark. During the last spring and summer my eldest daughter, then 17 years of age, was in very poor health, suffering from general debility, nervous prostration and frequent slight fevers. She had the best medical attention, but apparently with little benefit. In the latter part of September last, while still feeble she began the use of Paine's celery compound, and improved in health continuously. In three months she had fully recovered, and is now in perfect health. I am bound to think the remedy is an excellent one and do not hesitate to recommend it to the suffering."

To postpone at such a vital time as this regulating the nerves and purifying the blood is a serious mistake. Men and women distressed by nervous troubles or the effects of impure blood cannot afford to lose a day before taking advantage of Paine's celery compound.

In order to avoid disappointment accept nothing but Paine's celery compound. A clerk who tries to sell something else than what people ask for is evidently not disinterested. He has an eye to profits more than to the good of customers.

There can be no substitute for Paine's celery compound.

This has been shown time and time again in cases where persons, too easily led, have carried home something besides Paine's celery compound, and have failed to get the decided benefit they had hoped for.

The strongest indorsement ever received for this great spring remedy—and no remedy ever compared with Paine's celery compound in its character and the number of the witnesses to its efficiency—the strongest indorsement I ever received did not overestimate or exaggerate in the least its unrivalled power of making people well.

NEW FRENCH CABLE

Company Wants to Land Its Line at
Cape Cod, Mass.

LANDING MAY BE PROHIBITED.

Attention of Senators Called to Restrictions in a Pending Bill—Threats of Retaliation—Republicans and Democrats Agree to a Plan for Reorganizing Committees.

WASHINGTON, April 17.—The French embassy here is actively assisting the French telegraphic cable company in efforts to make it to lay a new cable from Brest, France, to Cape Cod, Mass., which shall take the place of the old cable laid 18 years ago. For this purpose the attention of senators has been called to the restrictions which a pending senate bill will place upon the French company. This bill prohibits the landing of new cables without the previous consent of congress, and it is claimed to be directed mainly against the French company. The cable has been partly laid and it is said that the care requisite in laying a cable makes it necessary to take advantage of the coming summer weather in order to make the landing at Cape Cod.

The French company has submitted a protest to the senate committee on commerce, and a strong intimation has been made to senators from official French sources that if the French company is denied entrance to this country then there will be strong probability of retaliation by the French government against the four American cable companies entering France. The point is urged also that the cable line to France would be an important military and strategic line to this country in the event of trouble between the United States and Great Britain, as all other trans-Atlantic cable lines pass over British territory.

The statement presented to the senate commerce committee points out that the French government is a friendly republic; that 4,000 American pupils are receiving their education free at the government's schools in France, and that as France has never discriminated against American companies congress should guard against legislation "which may be considered by the French republic as injurious to the interests of its people."

Mr. Blaine, when secretary of state, took decided grounds against allowing foreign cable companies to land their cables in this country without permission. It is said that in the course of the present controversy it has been stated that if the French company attempted to land its cable at Cape Cod the state department would interpose force, if need be, to prevent the landing. Another international phase of the subject is in connection with a proposed new German cable company. It is said that the senate bill is aimed at the German rather than the French company and is in some measure designed as retaliation for the restrictions against American life insurance companies doing business in Germany.

SENATE COMMITTEES.

Republicans and Democrats Agree on a Plan of Reorganization.

WASHINGTON, April 17.—The Republican committee on committees of the senate has agreed unanimously to accept, so far as it is empowered to do so, the proposition made by the Democrats for the organization of the senate committees. The proposition which the committee has agreed to accept provides that the Republicans shall fill all the committee places which were filled by Republican senators during the last congress, including the chairmanships vacated by Republicans, and that they shall be given one additional place on the appropriations committee vacated by a Democrat, and that the membership of the committee on postoffices and postroads shall be increased from nine to 10, in order to give the Democrats an additional place on that committee. This arrangement will result in leaving the Republican senators at the head of all the important senate committees, but a majority of the membership of many of them will be anti-Republican.

Throat Coughs

Is there a tickling in the throat? Do you cough a great deal, especially when lying down? Are you hoarse at times? Does nearly every cold you take settle in your throat? These "throat coughs" are very deceptive. Don't neglect them. Troches, or cough syrups won't touch the spot. You must take remedies that will enrich the blood, tone up the nerves; and heal the inflamed membranes.
SCOTT'S EMULSION of Cod-liver Oil with Hypophosphites contains such remedies. It has wonderful nourishing and healing power. The cause of the cough is removed; the whole system is given new life and vigor; and the danger from threatening lung trouble is swept away.

Western Senators Combine.

WASHINGTON, April 17.—Western senators after several conferences have reached an agreement to stand together for important changes in the wool schedule of the Dingley bill. The senators most prominently identified with the movement are Messrs. Mantle, Carter, Shop, Warren and Burrows. They have not only agreed upon a line of amendments, but have decided to insist on their inclusion in the bill. The meetings held have also been attended by many prominent woolgrowers.

TRUCE DECLARED.

The Senatorial Fight is Practically Off Until Tuesday.

FRANKFORT, Ky., April 17.—A truce in the senatorial battle has been declared until next Tuesday. The respective steering committees have signed agreements that on today and Monday one vote should be cast for each of the candidates. Nearly half of the members have gone home or elsewhere to stay till Tuesday morning and most of the remaining half will go to Louisville on a special train to attend the address of William Jennings Bryan at the Auditorium tonight. It is generally agreed that the Blackburn people are hoping for the indictment of Hunter on the idea that if indicted he cannot withdraw under a cloud and the cloud could not be lifted till the trial of the indictments which would last the summer out.

The grand jury, which has kept three deputy sheriffs busy looking for and summoning witnesses for two weeks, is not yet through and adjourned again last night without making a report.

DAUNTLESS WINS AGAIN.

Case Charging Violation of Neutrality Laws Dismissed.

JACKSONVILLE, Fla., April 17.—The case against the steamer Dauntless, charged with violating the neutrality laws by taking a filibustering expedition to Cuba from No Name Key on the southern coast of Florida, on Jan. 1, 1897, came up for trial in the United States court yesterday. After the government had submitted its testimony the case was promptly dismissed. No testimony was offered by the defense, and argument was not made by counsel. Judge Locke stated that no evidence had been submitted to show that the Dauntless had been fitted out for the purpose charged.

MISHAP TO THE INDIANA.

The Battleship Loses One of Her Torpedo Shells.

NEW YORK, April 17.—The battleship Indiana which lies anchored off Tompkinsville, lost one of her torpedo shells on the morning of the 14th, while at target practice. The torpedo shell was a blank one, 18 feet long, and was fired at an imaginary target 500 yards distant from the battleship. When fired on Wednesday morning, the mechanism of the shell got out of order and the practice crew were unable to find it. The torpedo shell cost \$2,500 and several boat crews from the Indiana have searched the waters of the upper and lower bay endeavoring to locate it, but so far without success.

SEIZED THE LIQUOR.

Consignment of Ninety-Eight Cases Taken by South Carolina Constables.

CHARLESTON, S. C., April 17.—Dispersary constables yesterday seized 98 cases of liquors consigned to John C. Simonds, one of the leading men of the city. The liquor came from a San Francisco house and was marked for personal use. A drummer of the house was recently in Charleston and a number of the leading people of the city clubbed together and made this purchase.

Pearly Order Revoked.

WASHINGTON, April 17.—Secretary Long has revoked the orders by which Lieutenant Robert E. Peary, the Arctic explorer, now on duty at the New York navy yard, was detailed to the Mare island yard, California. Strong pressure was brought to bear by the scientific and geographical societies throughout the country interested in Arctic explorations to have the secretary revoke the order. No application for another leave of absence has yet reached the department from the officer.

Passed the Senate Bill.

AUSTIN, April 17.—The house yesterday took up and rushed through the senate bill taxing sleeping and dining car companies 10 cents per 100 miles of travel, and life insurance companies 2 per cent on the gross premium receipts, and fire and fidelity companies 1 per cent annually. The bill only needs the signature of the governor to become a law.

BIGGS LEVEE BREAKS

People Have Been Notified to Flee From the Flood.

SITUATION AT OTHER POINTS.

People in the Vicinity of Vicksburg Have Not Heeded the Warnings Given by the Weather Officer—Condition as Reported From Memphis—Anxiety Is Intense at Natchez—At New Orleans.

VICKSBURG, April 17.—The levee at Biggs, two and a half miles below Delta, La., broke last night. The crevasse was 120 feet wide 20 minutes after it gave way. Delta is directly opposite Vicksburg.

The people have been notified to flee from the flood. Biggs is a sandy levee, generally speaking, though it cannot be asserted that this is the cause of the crevasse. Its importance may be estimated by the fact that such efforts have been expended to maintain it. Madison parish, whose interior is thus invaded by the great flood, is one of the richest and most populous parishes in north Louisiana, in the highest state of cultivation, and abounding in stock. Little of the latter has been removed up to the present time.

Few Heed the Warnings.

The situation along the Louisiana levees across the river, for 50 miles above and below this city, dwarfs every other feature of the flood problem into temporary insignificance. The rise shows no sign of diminution and the levees are actually in danger of being overtopped by the water now pouring out of the Yazoo basin in a sheet 25 miles wide, for a distance of 10 miles opposite this city. In spite of the evident danger and of the repeated warnings of the weather bureau very few persons are removing stock to the highlands, though all are taking other precautions, it is believed.

MEMPHIS REPORT.

Supreme Test of the Flood Situation Is Now at Hand.

MEMPHIS, April 17.—Advices from Natchez and other points below Vicksburg indicate that the supreme test in the flood situation is at hand. The swift current, which is rising steadily, is beating against the levees with such force as to cause the gravest apprehension at many places. At Natchez the river is near the top of the levee and everything possible is being done to fight back the encroaching waters. All kinds of rumors have been current regarding wholesale loss of life on Davis island, but diligent telegraphic inquiry fails to confirm the story. It is known that three negroes were drowned on the island, but outside of these fatalities no further loss of life is known to have occurred.

At Vicksburg the river is rising at the rate of four-tenths of a foot daily. The swift volume of water pouring out of the Yazoo into the Mississippi river at a point 12 miles north of Vicksburg will continue for several days. The levees between Bedford's store, four miles south of Delta, La., to Duckport, six miles above, are in a precarious condition and every man and boy available is at work strengthening the embankment. At some points in this stretch of levee the water is washing over and the greatest alarm is felt.

At Greenville the backwater from Stops Landing crevasse, which has been rising in the flooded part of the town during the last three days, began falling today. Rosedale, Friar's Point, Helena and other places report an encouraging improvement in the situation. The river declined one-tenth of a foot at Greenville yesterday and the fall of two-tenths of a foot reported at Cairo renewed hope that the vast amount of water will recede in time to make a good crop.

Many women are under a constant cloud of gloom and depression. The weariness and nervousness caused by some ailment of their sex is like a constant overhanging demon of disaster always ready to descend upon them. The average doctor cannot help them much. He has not time to become a specialist and learn the best treatment for these delicate troubles. He relies upon the usual treatment for these delicate troubles. A woman suffering from these delicate complaints who writes to Dr. R. V. Pierce, chief consulting physician of the (Invalids) Hotel and Surgical Institute, Buffalo, N. Y., will receive, free of charge, a letter of sound professional advice and suggestion for home-treatment. Dr. Pierce is one of the most skillful specialists in the world in treating women's diseases, and his "Favorite Prescription" cures the most obstinate difficulties, when all else fails.

UNDER THE GARFIELD ACT.

Mayor Good of Springfield, O., to Be Prosecuted.

SPRINGFIELD, O., April 17.—E. E. Calhoun, district organizer of the Typographical union and a member of the Trades and Labor assembly, stated yesterday that the assembly had retained lawyers to take steps to prosecute Mayor John M. Good for alleged violation of the new Garfield corrupt practices law limiting the amount a candidate for any office can expend to secure his election. In Mr. Good's case the limit was about \$130. His bill of expenses showed an expenditure of but \$40. The assembly claim that Good's real expenses were about \$1,000. The case will attract great attention, as it will be the first test case under this remarkable new law.

Dr. Miles' Nervine Triumphs.
Excessive Nervousness from Childhood.
La Grippe Brings on Heart Weakness.

REV. B. P. SEAREY, pastor M. E. church, Buchanan, Ga., writes Dec. 10, 1895: "In childhood I was afflicted with excessive nervousness, which, almost developed into St. Vitus dance. I partially recovered, but at college it gradually grew worse. Close study aggravated the trouble; any unusual exertion caused trembling all over. In 1890 I had a severe attack of La Grippe which brought on heart weakness. I had been almost constantly under treatment for nervous troubles, and changed climates frequently without avail. Last February I began taking Dr. Miles' Restorative Nervine and Liver Pills and since then I have been studying more and working harder than for years and the good effects that have resulted seem to be permanent." Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle benefits or money refunded. Book on Heart and Nervousness free to all applicants. DR. The Gist of It.

Alum costs between 3 and 4 cents a pound, but it is unwholesome.

Cream of tartar costs 25 cents a pound, but it is a fruit product and perfectly wholesome.

Cleveland's baking powder is made of pure cream of tartar; no alum, no ammonia, no tartaric acid, no phosphate, no adulteration of any sort.

That's why Cleveland's costs more to make than others; but it is worth more; it is wholesome and makes wholesome food.

The Hub

The Easter Birth.

Again the flower-shoot cleaves the clod;
Again the grass-spear greens the sod;
Again buds dot the willow-rod.

The sap released within the tree
Is like a prisoned bird set free,
And mounteth upward buoyantly.

Once more at purple evening-dream
The tender-voiced, enamored stream
Unto the rush renews its theme.

How packed with meaning this new birth
Of all the growing things of earth—
Life springing after death and dearth.

Thou, soul that still dost darkly grope,
Hath not this in its vernal scope,
Some radiant resurrection hope?

CLINTON SCOLLARD in April Ladies' Home Journal.

Italians at Work.

The Italians employed to make repairs on the B. & O. S. W. just west of the city are at work again today. No further trouble is anticipated.

The opposition to the Italians was not carried forth in a manner to meet the approval of the citizens of Seymour in general. Most people obey the law and do not sympathize with any movement that is in violation of the laws of the state.

It is now learned that the Italians were employed to work on the road at Dilaboro only after three separate attempts to secure natives. They get \$1.25 per day and not 65 cents as was at first reported. We may not sympathize with the employment of these Italians, yet the law grants them protection. That fact we must realize as good and peaceable citizens of the state.]

Deafness Cannot Be Cured.

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When the tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out, and this tube restored to its normal condition or hearing will be destroyed forever, nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness caused by catarrh that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Props., Toledo, O. Sold by druggists, 75 cents.

Hall's Family Pills are the best.

Ambitious Democrats.

Already some local democrats of the free silver brand are laying plans, hoping to succeed republicans a year hence in the administration of the affairs of the city. Of course they will be disappointed, but the probability of defeat never stands in the way of a democrat's anxiety to hold office.

On good authority it is stated that attorney J. T. Arbuckle has convinced himself that he is about the right size for mayor, and has gone so far as to hint the same to some of his confidential advisors. He feels encouraged.

F. W. Wesner (key note sounder) believes that he has done sufficient work for the untitled to warrant recognition. He wants the nomination for city clerk and will demand that when the proper time comes. He like Arbuckle, knows that it is a little early to begin a campaign for a local office, but he argues that the "early bird" gets there.

There are others who are ambitious to serve their country by holding office and will recite this fact to their friends later on. Their ambition is indeed commendable, but the sad thing about it is their hopes will not be realized. Republicans will continue to hold the offices and serve the people.

POLITICAL BREVITIES.

The senate has confirmed the appointment of W. T. Pritchard for postmaster at Franklin.

Yesterday the annual meeting of the Baptist Young People's Union of Brownstown was held at the Uniontown church. Sessions were held in the morning, afternoon and evening. Rev. J. W. Cleverger presided. Miss Jennie Overman resigned her position as secretary and Miss Emma Crabb was elected to fill the vacancy.

Sanders, Great mission of the B. Y. P. U. The evening address was made by Rev. J. M. Swarthout on the subject: Education with power. Full discussion followed each subject.

Mrs. A. Inveen, residing at 720 Henry St., Alton, Ill., suffered with sciatic rheumatism for over eight months. She doctored for it nearly the whole of this time, using various remedies recommended by friends, and was treated by the physicians, but received no relief. The Fairport Rocks.

The recent report that the Baltimore & Ohio railroad had made two important lake connections, one to Duluth and the North-west via Northern Steamship line, and the other to Chicago and Milwaukee, via the Owen line, through Fairport, O., has created some interest in the size and capacity of the docks at Fairport. Fairport is the Lake Erie terminus of the Pittsburgh & Western railroad, which is well known, is practically a B. & O. property, although under separate management. For some years the Fairport Warehouse & Elevator Company, which owns the docks and the facilities at that point, has been spending a great deal of money for the purpose of putting the plant in the very best possible condition to handle a very large lake and river traffic. The docks are 1200 feet in length and contain two steel frame iron-clad warehouses, each 465x90 feet, with a capacity of 150,000 barrels, and there is an addition, a one million bushel iron-clad grain elevator.

John P. McLean's
Great Newspaper.

Without a single exception, there is no paper in the United States that has done more for the Cincinnati Enquirer, and no more successful publisher than John P. McLean.

The old-time prices for the Daily Enquirer have been maintained, and its circulation largely increased each year; hard times and cheaper journals failing to arrest its onward march and high appreciation of the public for its true worth and merit.

The Weekly Enquirer at beginning of the campaign year was offered at 50 cents a year, and its circulation increased by the addition of over 200,000 new subscribers; the most substantial and coveted testimonial a publisher could desire.

When asked for the secret of such success, Mr. McLean frankly answers: The Enquirer has no opinions to force upon its patrons, it simply prints the facts and tells the truth that the reader may form his own opinions. By maintaining the price of the paper, more news and greater variety can be furnished, and every class of business interests catered to, which a cheaper journal cannot afford.

The very liberal support given the Enquirer by the public at large, makes incumbent upon the management to serve it faithfully with zeal and enterprise in minor matters as well as those of greater magnitude.

He Was in Luck.

As a teamster was slowly working his way through the quagmire, commonly known as a county road, between the Cummings hill and Fossil, he espied a hat in one of the ruts in front of him. As the headgear appeared to be fairly good condition, he dismounted to pick it up. As he raised the hat, he was astonished to hear a voice coming from under it exclaim: "Hold on, that's my hat." As soon as he had gathered his breath and wits, the teamster asked: "What are you doing down there?" Which brought forth the reply: "I'm in big luck to be where I am; there's a horse underneath me."—Fossil (Ore.) Journal.

Dangers of the Grip.

The greatest danger from lagrippe is of its resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. Among the tens of thousands who have used this remedy for the grippe, we have yet to learn of a single case having resulted in pneumonia, which shows conclusively that this remedy is a certain preventative of that dread disease. It will effect a permanent cure in less time than any other treatment. The 25 and 50 cent sizes for sale by C. W. Milhous, druggist.

DIED.

A son of John Normans, of Normans Station, died Wednesday April 14, 1897, aged twenty years.

Two years ago R. S. Warren, a druggist at Pleasant Brook, N. Y., bought a small supply of Chamberlain's Cough Remedy. He sums up the result as follows: "At that time the goods were unknown in this section; today Chamberlain's Cough Remedy is a household word." It is the same in hundreds of communities. Wherever the good qualities of Chamberlain's Cough Remedy become known the people will have nothing else. For sale by C. W. Milhous.

Ben Hur.

VALLONIA, Ind., April 16, 1897.—Through the work of deputy organizer Dr. L. Ewing, of Colfax, Ind., the mysteries of the "Tribe of Ben Hur" were revealed to a very large number of the best and most influential citizens of our town and surrounding country last night at the school building. Some of the boys from across the river had their place at the "oars" as they crossed the river but had to abandon the boat and wade, but they were bound to be there. A court made up of such brothers as those will be sure to succeed and any court should be proud of the n.

Supreme Deputy, B. E. Hays, of Crawfordsville, had charge of the work. He is almost a whole court in himself. The work exemplified by him is impressive and thorough. He was ably assisted by Roy Gerand, of Crawfordsville, Dr. L. Ewing, of Colfax, and C. B. Davis, of Brownstown. The work was begun about 8 o'clock and about one o'clock all left for their homes feeling glad that they had been there and that one of the best steps of their life was taken when they enlisted under the protecting arm of "Ben Hur."

The following officers were elected and installed as the first officers of Vallonia Court 118: Past Chief, Dr. H. E. Yost; Chief, S. T. Lockhart; Judge, Henry Aldridge; Teacher, J. L. Vinson; Scribe, Jas. C. Blain; K. of T., J. H. Gosman; Captain, F. A. Ryker; Guide, J. W. Trowbridge; I. G. K., Charles Duncan; O. G. K., Henry Labman.

The court starts out with glowing prospects and from the many favorable words we hear of it, it will only be a short time till they have doubled their membership. This is the second court in the county and ere long there will no doubt be many others. X

Americans are the most inventive people on earth. To them have been issued nearly 600,000 patents, or more than one-third of all the patents issued in the world. No discovery of modern years has been of greater benefit to mankind than Chamberlain's Colic, Cholera and Diarrhoea Remedy, or has done more to relieve pain and suffering. J. W. Vaughn, of Oakton, Ky., says: "I have used Chamberlain's Colic, Cholera and Diarrhoea Remedy in my family for several years, and find it to be the best medicine I ever used for cramps in the stomach and bowels." BANK ROBBERIES.

Cashier Stickney Murdered and All the Cash Taken.

SOMERSWORTH, N. H., April 17.—While resisting the entry of two desperate and determined robbers, and during a heroic but futile struggle to protect \$150,000 or more in money and securities in the compartments of the open vault of the Great Falls National bank of Somersworth yesterday, Cashier Joseph A. Stickney was struck down and brutally murdered near the desk which he had occupied for years. After killing Stickney the murderers ransacked the vault and fled with all the cash it contained with the exception of a \$5 gold piece. As near as can be estimated about \$6,000 was taken, but it is possible that the loss will considerably exceed this sum, as no one but the dead cashier knew the exact amount that was in the institution at the time.

The robbers after knocking Stickney down with a blackjack cut his throat. The most remarkable feature of the robbery is the fact that \$100,000 in bonds of the United States, which were kept in one of the drawers of the big vault and which the robbers evidently examined hastily, were not taken. Neither was any of the negotiable paper and securities of the bank—in fact nothing is missing except the cash. The men made their visit to the bank at the busiest part of the day in the locality where the bank is situated, and so completely and thoroughly did they accomplish the robbery that only an uncertain clue and a very meagre description of them was obtainable.

THREE CENT FARE.

President Mason and Manager Elliott of the Streetcar Company indicted.

INDIANAPOLIS, April 17.—The criminal court yesterday took hand in the Streetcar company's determination to not obey the 3-cent law passed by the last legislature. Judge McCray convened the grand jury and charged it regarding the violations of the law. As a result last evening 14 indictments were returned. The men indicted include President Mason of the Citizens company, Manager Elliott and 12 employees including two road officers. The indictments charge them with violating a state law in demanding and exacting more than 3 cents fare from passengers on streetcars. The defendants were arrested and gave bond in \$200 each.

The injunction case of the company against Charles Wiltzie, the prosecuting attorney of Marion county, to prevent the enforcement of the law brought in the United States court, will probably be decided today. The court will also decide the constitutionality of the law.

MURDERER HARTMAN, WHO KILLED MRS. GEDDES, CONVICTED AT PAXTON, ILLS.

PAXTON, Ills., April 17.—The jury in the trial of Frederick Hartman, who murdered Mrs. Weibke Geddes, near Sibley, found Hartman guilty last night and stipulated the death penalty. Hartman was perfectly composed and indifferent. The jury deliberated a few minutes only. On Dec. 2 Mrs. Geddes, the wife of a farm laborer, was found murdered at her home. Her body was suspended by the neck from a door knob and was terribly bruised, she evidently having been killed by strangulation and blows with a potato fork.

Hartman is believed to have killed a number of women in Illinois, Indiana and Michigan, all of which were murdered in much the same manner as was Mrs. Geddes. One victim was found near Melvin, Ills., and another at Danforth, Ills. Hartman is a farmhand, 40 years old and formerly lived in Michigan. He lived for some years in Bloomington, Ills. Although long suspected, none of the other murders could be fastened upon him.

Cashier Taylor Returns.

KANSAS CITY, April 17.—George A. Taylor, former cashier of the defunct Argentine bank, who mysteriously disappeared about a month ago, has returned home and voluntarily submitted to arrest on a warrant charging him with illegal banking. Taylor was arraigned and given a preliminary hearing. Friends went by his bonds. The warrant for Taylor's arrest was sworn out by a former depositor, who charged that the bank was in a failing condition when Taylor received a deposit from him. Taylor had been in New York looking for work.

Arrested as a Witness.

NEW YORK, April 17.—Deputy United States Marshal McAviney yesterday arrested Alexander C. Macauley, an important witness wanted by the government in connection with the alleged bicycle swindle for which W. S. Thompson was arrested. Macauley consented to go to Chicago and will probably start for that city with a deputy marshal tonight.

Warning and Threats.

OWINGSVILLE, Ky., April 17.—Proprietors of the Shelburn Roller mills have been notified by riders that they must not sell flour at more than \$1.50 a barrel. They have also threatened to burn the large bridge over Licking river at Sherburne. This bridge was built by Fleming and Bath counties at an enormous cost to the taxpayers of the two counties.

Extending Street Railway Franchises.

SPRINGFIELD, Ills., April 17.—The Humphrey bill, extending street railway franchises 50 years, and providing a tax on the gross earnings of streetcar lines has been passed by the state senate 89 to 16. The bill has yet to pass the house, and is being hotly opposed, particularly in Chicago, by the municipal reform organizations.

Cigar-maker Suicides.

INDIANAPOLIS, April 17.—Henry Dingus, a cigar-maker, who came here from Terre Haute, Ind., about Feb. 1, committed suicide in the George Hotel yesterday, by taking morphine.

Fell in the Cistern.

MONTGOMERY, Ind., April 17.—David Koy's 1-year-old daughter fell in the cistern last evening and was drowned.

BACK

NEILL OF ARKANSAS.

Another U. S. Congressman Indorses Paine's Celery Compound.

Within the past year, among the thousands of hearty testimonials to the wonderful curative powers of Paine's celery compound that have been received by Wells, Richardson & Company—among the thousands of grateful letters received from every state and town in the country, there have come no less than six hearty indorsements from members of the national houses of representatives.

All were willing that their experience should be published, believing rightly that they might thus do good to others.

In these columns have already been published, the letters received from Congressman Robert Neill of Arkansas, as follows:

"My home is at Batesville, Ark. During the last spring and summer my eldest daughter, then 17 years of age, was in very poor health, suffering from general debility, nervous prostration and frequent slight fevers. She had the best medical attention, but apparently with little benefit. In the latter part of September last, while still feeble she began the use of Paine's celery compound, and improved in health continuously. In three months she had fully recovered, and is now in perfect health. I am bound to think the remedy is an excellent one and do not hesitate to recommend it to the suffering."

To postpone at such a vital time as this regulating the nerves and purifying the blood is a serious mistake. Men and women distressed by nervous troubles or the effects of impure blood cannot afford to lose a day before taking advantage of Paine's celery compound.

In order to avoid disappointment accept nothing but Paine's celery compound. A clerk who tries to sell something else than what people ask for is evidently not disinterested. He has an eye to profits more than to the good of customers.

There can be no substitute for Paine's celery compound.

This has been shown time and time again in cases where persons, too easily led, have carried home some thing besides Paine's celery compound, and I have failed to get the decided benefit they had hoped for.

The strongest indorsement ever received for this great spring remedy—and no remedy ever compared with Paine's celery compound in its character and the number of the witnesses to its efficiency—the strongest indorsement it ever received did not overstate or exaggerate in the least its unrivalled power of making people well.
